

impuls

Light and form in perfect harmony.

impuls. In the contrast between light and dark, colours and shapes become particularly prominent. impulse unites these impressions into extraordinary design and innovative technology with harmonious light for orientation. What is particularly fascinating here is the the contrast between clear lines and the elegance of the circle. Even in the dark this switch convinces – discreet continuous light provides orientation. The additional Softtouch colours of studio white matt and black matt set impulses.

impuls

- 01 2gang combination switch/socket outlet, child protection.
Colour: black matt* (similar to RAL 9005)
- 02 alpine white (similar to RAL 9010)

The impuls switch range is available with all kinds of inserts and control elements. With extreme ease, you can thus raise the living comfort of your customers, increase safety, or make the use

of power more economical. In communication systems/special connector devices you will find the suitable solution for special applications.

Different by design

- 35 81 mm x 365 mm

Permanent light for orientation in a deactivated state thanks to long-lasting LED technology in the colours white, red, and blue.

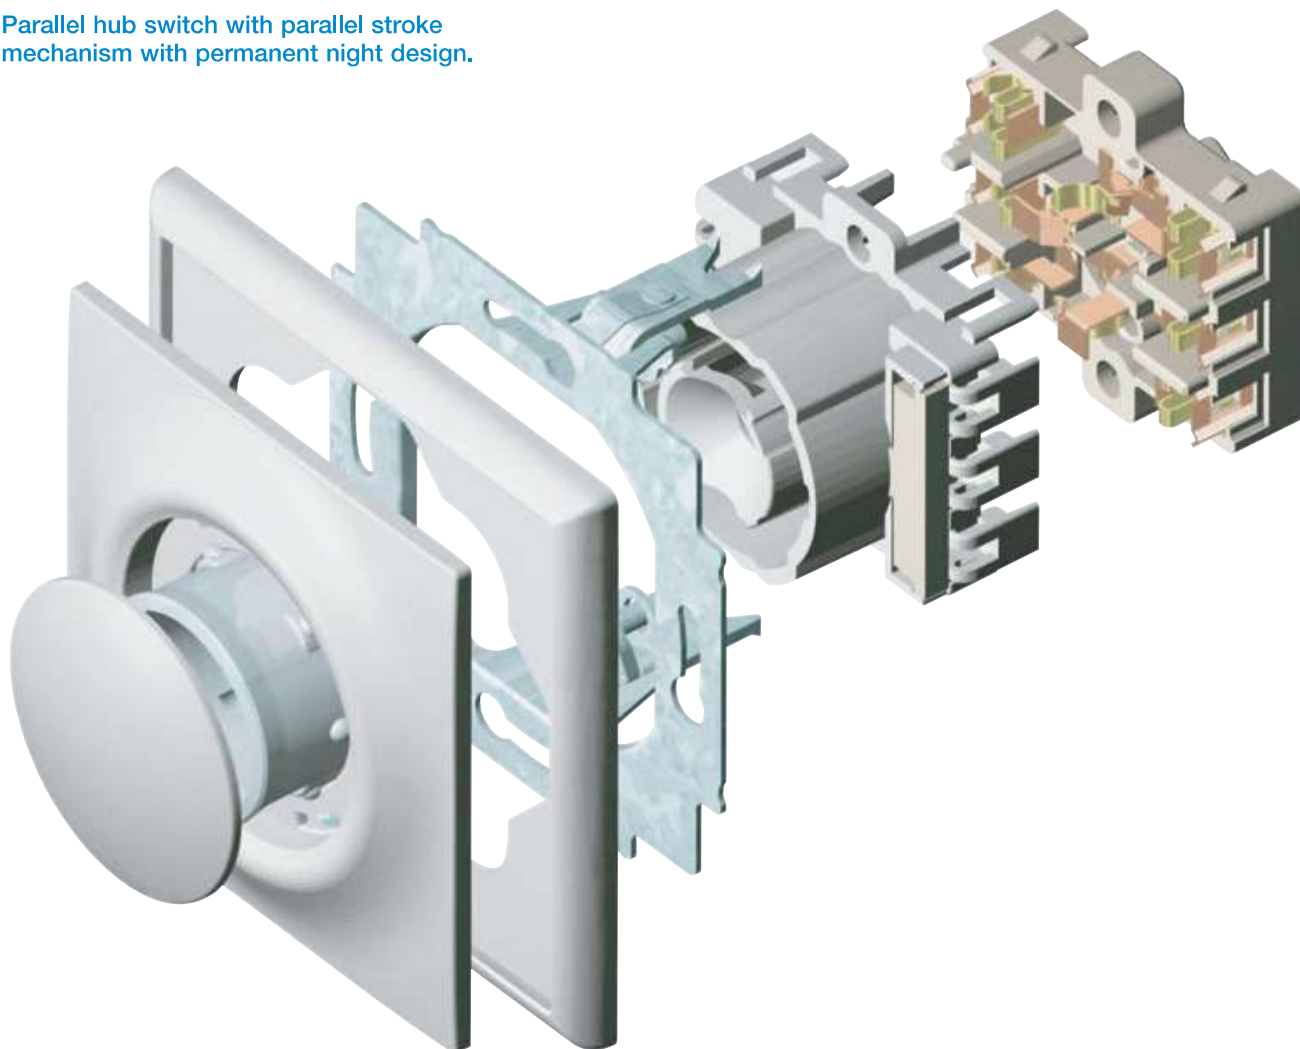

The fascinating design of the switch ranges can be experienced with the light switch app and is available for iOS and Android. Now obtainable free of charge in the respective app store.

Additional information is available in our range and products brochure.

Brochure: light switches
0001-0-1215

Parallel hub switch with parallel stroke mechanism with permanent night design.

Permanent night design.

The impuls always lights when it is needed: In a deactivated state the gap around the actuation rocker is permanently illuminated. This decorative light, which is almost imperceptible during the day, acts like a small beacon in the night and provides outstanding orientation. This is practical, pleasant and offers safety.

Parallel hub technology.

Here, different to the conventional switches, a small press on any point of the operating knob is sufficient to trigger the switching process. A higher operating comfort would be difficult to obtain.

Pressure sequence technique.

As usual in high-tech, the light goes on with the first press, and off with the second press. The so-called switchover point of impuls is selected in such a way that the fingers clearly feel the switching process. Switching becomes a sensory experience, it makes „click“ in a two-fold sense.

Module principle.

All versions of the impuls range are as usual structured according to the module principle and can therefore be replaced. An exception is the switch, because a new switching process also requires a new switch base.

Product	Article-No.	Order-No.	Pack/Qty	PG
	Rocker Switch with parallel stroke switch mechanism ^{1) 2) 3)} Suitable for <i>impuls</i> cover plate with operating knob, Rated voltage: 250 V~ Rated current: 10 AX IEC 60669-1			
	1gang 2way 2001/6 U-500	1012-0-2195	10/100	01

Control elements for movement detectors/comfort switches

Product	Article-No.	Order-No.	Pack/Qty	PG
---------	-------------	-----------	----------	----

Busch-Watchdog 180 flush-mounted comfort sensor II 1)
With select-lens.
 For automatic switching of devices dependent on motion and brightness.
 For relay inserts 6401 U-102, 6402 U and 6812 U-101.
 For MOS-Fet insert 6804 U-101.
 For Dimmer insert 6593 U.
 For extension insert 6805 U.
 With integrated selector switch for ON-AUTOMATIC-OFF (lockable).
 Soft phase-out: In combination with the 6593 U (mode of operation: Soft OFF) the illumination is dimmed down within 60 sec and switched off.
 Surveillance density: 18 sectors with 72 switching segments.
 Switch-off delay: 10 sec to 30 min or short-time pulse 1 sec adjustable.
 Detection range: frontal: 12 m, lateral: 8 m
 Detection angle: 180 °
 Brightness limit value: 5 Lux Up to daytime operation
 Mounting height: 0,8 m - 1,2 m
 Protection class (Sensor): IP 20
 Temperature range (Device): 0 °C to 35 °C

72 ivory	6800-72-104	6800-0-2338	1/10	19

783 aluminium silver 2)	6800-783-104	6800-0-2340	1	19

1) Please order the respective flush mounted insert separately.
 2) Surface painted.

Busch-Watchdog 180 flush-mounted comfort sensor II 1) 2)
With multi-lens.
 For automatic switching of devices dependent on motion and brightness.
 For down-to-ground detection.
 For relay inserts 6401 U-102, 6402 U and 6812 U-101.
 For MOS-Fet insert 6804 U-101.
 For Dimmer insert 6593 U.
 For extension insert 6805 U.
 With integrated selector switch for ON-AUTOMATIC-OFF (lockable).
 Soft phase-out: In combination with the 6593 U (mode of operation: Soft OFF) the illumination is dimmed down within 60 sec and switched off.
 Surveillance density: 28 sectors with 112 switching segments.
 Switch-off delay: 10 sec to 30 min or short-time pulse 1 sec adjustable.
 Detection range: frontal: 15 m, lateral: 5 m, Mounting height: 2,5 m
 Detection range 2: frontal: 10 m, lateral: 2,5 m, Mounting height: 1,2 m
 Detection angle: 180 °
 Brightness limit value: 5 Lux Up to daytime operation
 Mounting height: 0,8 m - 1,2 m alternative: 2,5 m
 Protection class (Sensor): IP 20
 Temperature range (Device): 0 °C to 35 °C
